BOHEMIANS OF CHICAGO REJOICE

WASHINGTON, Sept. 16.—America's recognition of the Czech-Slovak as a separate belligerent nation is to be the occasion of a number of celebrations in American cities which contain large Czech populations. One of the first formal celebrations is to be held in Chicago on September 18, when a large banquet will be given, with Professor Thomas G. Masaryk as the principal speaker.

Meetings are planned in the near future for Detroit, St. Louis, Cleveland and New York. The Bohemian groups in these cities will gather and sing their national anthems, listen to the addresses of their orators, and make plans for the future of the Czech-Slovak state. Of course, the statement of Secretary Lansing last week was the signal for a number of impromptu celebrations in every city of the land where Bohemians are living in communities. The satisfaction felt by these people now that their independence is recognized by America can well be understood when one remembers that they have been under the Austrian yoke for three centuries. During a large part of this time they have suffered actual oppression and have been in a state of smothered rebellion.

AUSTIN HAS BIG PINE NUT CROP THIS SEASON

The pine nuts this year are abundant and those who have been out among them say that the nuts are the finest they have ever seen, being large and fat. The housekeepers of Austin are somewhat inconvenienced by the fact that the Indians have nearly all left town to harvest the crop, leaving the washing and scrubbing, which is generally done by the native daughters, to be done by the white women, or left undone until the nut crop is all in—Austin Rev. ellie.

Subscribe to the Bonanza. Do it now. They are all doing it.

No More Free Papers

The United States industrial board has ordered that no free papers be sent out from any newspaper office in the United States and that all subscriptions covering papers going by mail shall be paid in advance. This order is absolute and does not leave the publisher any chance for evasion under penalty of being debarred from use of the mails and in withdrawal of authority to procure further delivery of printing paper. The entire publishing business is now subject to these orders and in compliance with same the Bonanza is compelled to cancel its complimentary list and advertisers going free to advertising agencies which do not have advertisements running in the issues sent out. Moreover, the government demands a complete return every day of the number of papers printed, the amount received from subscriptions and advertising thus placing an effective check on disloyal publishers who would seek to evade the regulations.

WONDER SHIP MAKES AMAZING RECORD

WASHINGTON, D. C., Sept. 16.—California's labor power has again shown its mettle in the remarkable time made in the building of the Defiance, the "wonder ship of the world," which was one of four 12,000-ton cargo carriers launched in the Alameda yards in one day. The department of labor finds that many records are going in this war. It was just 38 days from the time the keel was started until the vessel was launched. These 38 days included Sundays and holidays. The Defiance was built by the Bethlehem Shipbuilding Corporation. The men have received much praise for their splendid effort in turning out the Defiance in so short a time. The record really surpasses the 27 days required for the building of the Tuckahoe by the New York Shipbuilding company, according to Pacific coast shipping men. It is estimated that about 50 per cent more steel was required for building the Defiance than for making the Tuckahoe.

NO TRUTH IN REPORT OF GREAT WESTERN

A report was current this morning that the Great Western mine had been drowned out and that its entire pumping equipment was under water once more. Inquiries disclosed there was not a shred of truth to hang the story on as the mine is running regularly with three shifts and the pumping plant handling the water flow without a hitch. Three shifts are employed and there is no indication of stoppage.

MINE ENGINEER GAINS PROMOTION

John S. Skuse, well known mining engineer of Nevada before the war, has advanced another step in his career as a soldier. He has just received an appointment as a major in the infantry. He went from Nevada to the first officers' training camp at the Presidio and succeeded so well that he was given a captain's commission at the close of the camp. After serving for a time as captain of Company G, 363d Infantry, he was appointed commander of the technical engineers' school at Blacksburg, Va. His commission as major came recently according to word received here by friends. Major Skuse was a colonel on the staff of the governor prior to the war—Reno Gazette.

MEXICANS OBSERVE NATIONAL HOLIDAY

Wherever Mexicans are employed there was nothing doing today. The bosses at the mines and railroads received no warning but when the whistle blew there was no response from the Latins who have recently been arriving freely from the southwest. Inquiry developed that this was the national holiday which no true patriot could observe without taking a day off for the celebration. There was keen disappointment, however, when it was found that a flag of Mexico could not be found in Tonopah and a committee called at Red Cross headquarters this morning to try to enlist the services of the needlewomen to turn out the national colors.

A banquet will be held this evening at the U. & I. boarding house where covers will be set for thirty guests and a street parade may follow.

CALIFORNIA CANDIDATE EARNS A COMMISSION

WASHINGTON, Sept. 16.—Walter L. Crank, of Fortuna, Cal., was among the successful candidates for commissions as second lieutenant of cavalry in the fourth officers' training school at Fort Riley.

LENINE-TROTSKY

(Continued from Page One.)

them remained in the fabric of roguery and into the vacancies they fit perfectly. The Bolshevik leaders themselves informed their "comrades" that the German government had required the return of the order of the German Imperial bank depositing 50,000,000 gold rubles in a Stockholm bank for Lenin and Trotsky, and that at the same time the accounts of the bank had been "audited" to conceal the payments. The part played by the German Imperial bank in financing the Russian Bolshevik movement, the care taken by the German military authorities to prevent spread among their own people of the socialist preaching of their Russian tools, and the plans laid for German control of Russia economically and financially during and after the war feature the disclosures in the second installment of the sensational series of secret documents which the American government is making public. Copies of the documents carry the file numbers of the Reichbank or of the German general staff, and in some instances notations by Lenin or Trotsky the Bolshevik leaders now shown to have been in the pay of Germany since long before they overthrew Russia's new democratic government and virtually turned the country over to the Teutons. There are illuminating explanatory notes by Edgar Sisson, of the committee on public information, who directed the investigation which resulted in the disclosures.

One of the Reichbank memoranda, dated last January, announced to the commissar of foreign affairs (Lenin), that fifty million rubles of gold has been placed to the credit at Stockholm of the representatives of the commissars to cover the cost of Red Guards and agitators. Another of a few days later tells of a credit of five million rubles for the assistant naval commissar in the far east, who is entrusted with the task of carrying off or destroying the great American and Japanese stores of war material at Vladivostok—a scheme that probably was well under way when the landing of American and allied forces at Vladivostok ended away of the Bolshevik there.

Not only is Mr. Hayes urging the men to put forth every effort possible to increase production, but the United Mine Workers' Journal, organ of the union, exhorts them thus: "Dig! Miners, dig! Dig coal; dig more coal; dig still more coal; the success of the war depends on the coal you dig."

In view of these efforts and of the great production at the bituminous mines, the union officials feel that wherever men are idle it is not their own fault.

COUNCIL OF DEFENSE CONDEMNS HEARST

Declaring that the Hearst publications have not in the past shown a true American spirit and through their past actions have jeopardized the interests of the American people the convention of the directors of county councils of defense in Nevada and the state council of defense adopted resolutions Saturday afternoon, without a dissenting vote, protesting against the circulation of the Hearst publications in Nevada and calling upon all loyal newsmen of the state to refuse to offer for sale or handle any of the publications.

CELEBRATING THE YANKEE VICTORY

Tonopah put pep into its celebration of the first all-American victory in France by turning out in a body Saturday night and demonstrating as it never demonstrated before. The street features were a repetition of previous affairs but, at the speaker's stand the chorus singing of the national anthem was such a profound success that the element will probably be incorporated as a regular feature. Charles L. Richards delivered the address which reviewed the history of the war ever since the United States resolved to cast its lot with the allies and wound up with a glorious tribute to the individuality of the American soldiers whose initiative was largely responsible for the capture of the St. Mihiel salient.

At one time the speaker was almost strangled by smoke arising from a bonfire built by enthusiastic demonstrators to windward of the speaker's stand which for a time was hidden by the dense smoke.

Before introducing the speaker Harry Grier read a number of special wires announcing further advances by the American troops. When he read what purported to be an official statement that Mulhausen was being evacuated the crowd went wild with delight.

Mrs. Walter Thatcher sang "The Star Spangled Banner" with the Elks carrying the chorus and everybody joining in. The band of the Musicians' Union and the Tonopah Drum corps turned out in full strength.

SPEEDING UP OUR COAL PRODUCTION

WASHINGTON, Sept. 16.—Officials of the United Mine Workers' union are conducting questionnaires to find out just why miners are idle. They express the view that where any men are not at work it is through causes they can not control, and they predict the questionnaires will certify their belief.

Frank J. Hayes, international president of the union, has made a tour in Pennsylvania, speaking to the miners to urge upon them the necessity for maximum production during the war. How well the men are responding is shown by the fact that 13,243,000 tons of bituminous coal were mined in one week in July—almost half the amount of bituminous coal required for the New England States—and by the mining of more than 2,000,000 tons in one day on several occasions this season. Production thus far is breaking all records.

"The miners can flood the country with coal, if they are given proper facilities and encouragement," said Mr. Hayes in an address at Mahanoy. "And there is no necessity for working more than eight hours."

Not only is Mr. Hayes urging the men to put forth every effort possible to increase production, but the United Mine Workers' Journal, organ of the union, exhorts them thus: "Dig! Miners, dig! Dig coal; dig more coal; dig still more coal; the success of the war depends on the coal you dig."

In view of these efforts and of the great production at the bituminous mines, the union officials feel that wherever men are idle it is not their own fault.

PERSONAL

MISS IRENE CRITCHFIELD left this morning for Rio Vista academy. F. E. JACKSON and wife motored in from Tybo and expect to leave shortly for California.

E. H. McMURRAY returned Sunday night from a trip to Reno, making the trip in nine hours. CHARLES McLEOD and Eugene Daniels arrived from the Smoky valley ranches last evening.

The Manhattan Consolidated, came in yesterday from Hawthorne to look after his local interests.

JUDGE MARK R. AVERILL, is back from attending a session of the Nevada State Council of Defense. MRS. JOHN CLARK and family have returned from Santa Cruz where they spent their summer outing.

SAMUEL NEWHOUSE, president of the Louisiana Con. Mining company, arrived this morning from Salt Lake.

A. A. CARPENTER, general manager of the Nevada Wonder Mining company, returned to Wonder this morning.

GEORGE L. BRUSSELL has returned from Ely where he spent some time as a member of the Nevada state police.

C. E. MONAHAN, son of Mr. and Mrs. J. E. Monahan, left today to attend the University of Nevada at Reno.

WILLIE NOVACOVICH, of the Tonopah Banking Corporation, accompanied by his wife, left this morning for New York City to enjoy a short vacation.

MISS LENA GINOTTI and sister, Theresa, who have been visiting their brother, Sam, of Tonopah and sister, Mrs. Ernest Dillery, returned to their home in Modesto this morning.

PAUL REVERT, accompanied by his wife and son, who have been touring the Yosemite, and California pleasure resorts for the past month returned to Tonopah Saturday evening.

THOMAS J. LYNCH and W. G. Walker, who have been looking after Uncle Sam's treasury interests for the past ten days in Mono and Inyo counties, returned home this morning.

PORTUGUESE SHIP SUNK IN THE NORTH ATLANTIC

AN ATLANTIC PORT, Sept. 16.—Sixteen of the crew of the Portuguese steamship Letuxes, who arrived today, said their vessel was torpedoed in the north Atlantic Thursday. It is feared that thirty-five others are lost.

BAKER IN LONDON

LONDON, Sept. 16.—Secretary Baker arrived today from Paris.

AMUSEMENTS

BUTLER THEATER
There will be no show at the Butler theater either tonight or tomorrow, as the management for the present contemplates running five days a week. The next show will be "To Hell With the Kaiser," one of the spectacular war pictures which has earned encomiums wherever shown. Don't fail to see it Wednesday afternoon and evening.

NEW LEDGE IN THE UNION AMALGAMATED

An important discovery was made in the Union Amalgamated of Manhattan yesterday, according to the report made by L. L. Muesett, the general superintendent, who says that two feet of ore that will pan from \$50 to \$100 has been opened on the Pierce fault west of the Earl shaft, in a part of the mine that had never been touched. The find was made on the 600 level and the indications are that it will go up to the Pierce workings about 80 feet below the surface. On running a crosscut on the 600, a big ledge of clean ore of good milling grade has been opened.

GOLDFIELD MAN KILLED

Adjutant General Sullivan yesterday received a letter enclosing the notice of the death of John Lyman Wentworth on the battle line in front of the Somme.

The soldier boy was formerly employed by Mr. Sullivan at Goldfield. He enlisted from Vancouver, B. C., joining a Canadian contingent and served six months in the firing line. In a letter his mother recently received the young man stated that he hoped to be home to vote for "Sully" on election day—Carson News.

NEW TODAY

ASSESSMENT NOTICE
MANHATTAN UNION AMALGAMATED MINES SYNDICATE—Location of principal place of business, Tonopah, Nye County, Nevada. Location of works, Manhattan, Nye County, Nevada.

Notice is hereby given that at a meeting of the Board of Directors held on the 8th day of September, 1914, an assessment (No. 2) of one cent per share was levied upon the capital stock of the corporation, payable immediately in United States gold coin to the secretary, at the office of the Registration Survey Company, room 265, Russ Building, San Francisco, California. All stock upon which this assessment shall remain unpaid on the 10th day of October, 1914, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, the 11th day of November, 1914, to pay the delinquent assessment, together with cost of advertising and expenses of sale. By order of the Board of Directors, CHAS. H. OLNEY, Secretary. Office: 345 Russ Building, San Francisco, California. adv14-019
